Read the Operator's Guide and watch the Safety DVD before driving. **BRP** highly recommends that all-terrain vehicle (ATV) drivers take a training course. ATVs can be hazardous to operate. For both ATVs and side-by-side vehicles (SSVs), the operator and passenger should wear a helmet, eye protection and other protective clothing. Respect the minimum age as required by law. For SSVs, fasten lateral net and seat belt at all times and passenger must be at least 12 years old and able to hold handgrips and plant feet while seated against the backrest. Never carry passengers on any ATV not specifically designated for such use. For ATVs, **BRP** recommends not to carry any passengers under the age of 12. However, users must always respect any applicable law establishing a minimum age for riding an ATV/SSV. Always remember that riding and alcohol/drugs don't mix. Never engage in stunt driving. Avoid excessive speeds and be particularly careful on difficult terrain. Ride responsibly. **BRP** urges you to "TREAD LIGHTLY" on public and private lands. Preserve your future riding opportunities by showing respect for the environment, local laws and the rights of others when you ride. Always ride responsibly and safely. Never carry passengers on any ATV not specifically designated for such use. Highly skilled operators under controlled conditions appear in this brochure. Do not attempt these manoeuvres if they are beyond your skill level. Pictures taken outward, on private land. **BRP** reserves the right, at any time, to discontinue or change specifications, prices, designs, features, models or equipment without incurring obligation. Some models depicted herein may include optional equipment or not be available in your country. Prices are based on Manufacturer Suggested Retail Prices. APACHE WT SYSTEMS

THE WIDEST TRACK IN THE INDUSTRY

The 34.6 cm x 2.5 cm [13⁵/₈" x 1"] rear track profile provides a larger footprint and industry-leading flotation and a 29 cm [11¹/₂"] arc-shaped front track reduces vibration and steering effort.

NOW INCLUDED WITH THE NEW APACHE WT SYSTEMS

REAR AND FRONT MOUNTING KITS

A simplified system that reduces installation time. New and improved front mounting kit allows for smoother steering with less effort and reduced stress on the front suspension.

APACHE WIDE TRACK SYSTEM

(Not illustrated)
Same great features that have made this a must-have and more. Specially designed for your Can-Am ATV.
Outlander & Outlander MAX - 715001086

STUDED APACHE WIDE TRACK SYSTEM

Additional traction providing more control in icy conditions. Factory pre-studded tracks. 114 studs per rear track. 76 studs per front track. 380 studs total.
Outlander & Outlander MAX - 715001087

Note: The Apache WT System is the only track kit available that maintains the Can-Am ATV vehicle warranty.

CVT PRE-FILTER

Designed to prevent snow intrusion in the CVT and belt slippage when Apache Track System is used in deep snow. Easy to install and remove. Comes standard on Renegade and Outlander 800 2009.
Renegade & Outlander 500, 650, 800, 2009 and prior - 715000552

CVT AIR INTAKE

Designed to relocate and maximise height of the CVT air intake to prevent belt slippage in deep snow or muddy conditions. Equipped with integrated CVT pre-filter to also reduce dust and extend CVT and belt life.
Outlander 500, 650, 800 2008-2009 - 715000970

PRE-FILTERS
